Rawalpindi, Pakistan

SUMMARY

Computer Science graduate with hands-on experience across full-stack web development (MERN), telecom cloud core network operations, and applied AI integration. Skilled at building scalable applications, integrating REST APIs, and collaborating cross-functionally to deliver clean, production-ready solutions in fast-paced, high-pressure environments. Adaptable across software engineering, AI engineering, and telecom/network roles.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Three.js

Backend & APIs: Node.js, Express.js, RESTful APIs, Firebase

Database & Cloud: MongoDB, Mongoose, Firebase, Vercel, Netlify

Tools & Concepts: Git, GitHub, Postman, Vite, Component Reusability, Responsive Design

AI: YOLOv11, Object Detection, Multi-Object Tracking (SORT), OpenCV, EasyOCR, Real-Time Video Analytics

Telecom: Telecom Cloud, Core Network, CS/IMS

PROFESSIONAL EXPERIENCE

Management Trainee Officer | Hillcrest Solutions (Huawei Pakistan)

Jul 2026 – Oct 2026

- Contributed to IMS deployment and testing activities within the Circuit Switch (CS) / IMS core network team in a carrier-grade telecom environment.
- Gained hands-on knowledge of telecom core network architecture, protocols, IMS operations, and deployment processes through practical training and project involvement.

Frontend Developer | Dodo Softec

Sep 2024 – May 2026

- Engineered responsive, high-performance UIs using **React.js** and **Tailwind CSS**, ensuring cross-platform consistency.
- Integrated **RESTful APIs**, optimizing data flow, dynamic rendering, and reducing application load times.
- Collaborated with backend teams for seamless **MERN stack** integration and scalable architecture deployment.

Frontend Intern | Dodo Softec

Jun 2024 – Aug 2024

- Developed modular, user-facing components utilizing **HTML**, **CSS**, and **JavaScript** within the React ecosystem.
- Refactored legacy codebases and debugged core features to improve overall code quality and maintainability.

EDUCATION

Bachelor of Science in Computer Science

Sep 2022 – Aug 2026

University of Engineering and Technology, Taxila

CGPA: 3.85 – Silver Medalist

TECHNICAL PROJECTS

NextGen Traffic | MERN Stack, API Integration, Computer Vision

- Architected the comprehensive frontend and backend API infrastructure for a multi-tier web application.
- Integrated **Node.js** APIs with an external Python-based AI engine to process and display real-time vehicle tracking data.

ASCND Dashboard | React.js, Tailwind CSS, Firebase

- Built robust, responsive web dashboards tailored for complex data management and secure user portals.
- Implemented high **component reusability** and secure **authentication** flows to streamline user experience.
